

ANBUG - the Australian Neutron Beam Users Group

The ANBUG Award in Neutron Science

Purpose: To recognize *outstanding research in neutron science and leadership promoting the Australian neutron scattering community*. Consideration shall be given to outstanding research accomplishments and contributions to the advancement of neutron science, including developing or supporting the Australian neutron scattering community, through teaching, research, technical leadership and scientific writings. Preference will be given to applicants who are members of ANBUG and whose work was carried out primarily in Australia.

Definition: The award - consisting of a plaque and a small gift (e.g. relevant book) - will be presented at the AINSE-ANBUG Neutron Scattering Symposium (AANSS) or at a closely related meeting. The recipient is expected to present an invited talk at the symposium.

Selection Committee – The Committee will normally comprise four ANBUG Committee Members including: President (Chair), Vice-President, Secretary and one other.

Timing: The ANBUG Neutron Award is expected to be awarded biennially at the AANSS or at a closely related meeting.

***Nominations:** The deadline for receipt of nominations is 3 months before the AANSS (the annual symposium is usually held in December; the nomination deadline would then be 1 September of the same year.)

*Nominations should include:

- A letter of nomination (2 signatories; both ANBUG members) not to exceed 500 words evaluating the nominee's qualifications and identifying the specific work to be recognized and how the work has led to the advancement of neutron science.
- The nominee's CV clearly identifying the work that relates to the award nomination. *Do not include reprints unless they are not readily available electronically.*
- Electronic (e-mail) delivery of all documents in pdf format is preferred. Otherwise send 5 copies of the nomination package to the Secretary of the Selection Committee (ANBUG Secretary < <http://www.anbug.org/> >).
